

HD SERVICES PRICE LIST

This is the price list for Digita Oy (hereinafter referred to as Digita) HD services. The price list applies to the Television Broadcasting Services distributed on Digita's DVB-T2 network. On Digita's DVB-T2 network, TV broadcasts are broadcast in high-definition (HD) quality. From the price list, it is possible to select one time period, in full or in part, or a combination of several time periods within the desired coverage area for one TV channel.

Name of time period	Time
All time	24 hours per day
Prime time	Between 17:00 and 24:00, a total of 7 hours per day
Business time	Between 6:00 and 17:00, a total of 11 hours per day
Night time	Between 24:00 and 6:00, a total of 6 hours per day

The prices of HD services are shown in the table below. The price is stated in €/month/channel (+ VAT). The average bit rate of a premium HD channel is 6 Mbit/s and the average bit rate of a standard HD- channel is 4 Mbit/s. The channel picture quality is HD in 99.96% and 98% coverage areas and HD and HD- in 95% and 90% coverage areas.
